Amadablam Expedition

Tour Overview

Join us to climb the world's most beautiful peak Amadablam(6993m) Expedition which lies in the Khumbu region of Nepal.An expedition to Amadablam is also one of the most sought-after destinations of mountaineers from around the world.The spectacular AmaDablam is one of the world’s most impressive mountain peaks, standing at the center of the Khumbu Valley. Due to its unique, sharply pointed soaring shape, ascending this sheer peak is the ultimate dream of many climbers worldwide. 28 days are available to us at the Amadablam on their southwest ridge to climb the easiest ascent route.

To reach the first camp from base camp, the climbers have to pass the toughest and the most difficult passing through the difficult saddle ridges, and then should turn to the north climbing up through the rocky ground and through the boulder. From here to the summit, it is a steep climb on snow and ice to the right of a huge hanging glacier. Only fit and experienced climbers can join this expedition. Asian Expedition Pvt handles full of peak arrangements from Kathmandu to Amadablam Peak Expedition to Kathmandu. Our Sherpas are most experienced in this peak climbing and really, they are dedicated and helpful.

Experience Required: The Amadablam expedition is one of the most technically difficult expeditions. The climbers need to have good skills in rock and ice climbing and be technically competent. On most parts of the routes, there will be fixed rope, however, the climbers should possess skills to climb through steep rock and hard water ice. Only fit and experienced climbers can join this trip. This expedition is exhausting and demanding.
