Chulu west Peak(6419m) Climb

Tour Overview

The most popular peak in the Annapurna Himalayas is Chulu West Peak, which requires solid climbing knowledge. This peak is located north of the Manang Valley, and the route follows the Annapurna trail up to Ledder. Each year, it attracts Western climbers who are seeking a technical peak under 7,000 meters.

We set the base camp at 4,930 meters and the high camp at 5,530 meters. These high camps can be quite chilly and windy. However, the spectacular views of the Chulu Peaks, Annapurna Range, Thorong Peak, Tilicho Peak, and the surrounding hundreds of peaks offer ample rewards for those who climb.
